Moriroku Holdings Company, Ltd

Moriroku Technology to Introduce Use of EV Company Cars

Moriroku Technology Company, Limited (“Moriroku Technology” below), a member company of Moriroku Holdings Company, Limited (Head Office: Minami-Aoyama, Minato City, Tokyo; President and CEO: Takashi Kurita), hereby announces that it has introduced the use of electric vehicle (“EV” below) company cars and recharging equipment at its Technical Research Center in Moka.

The Moriroku Group will successively switch its company cars to EV as part of its initiatives aimed at SDGs. In addition to a lower environmental burden in its business activities, the Group also expects that this initiative will boost the environmental awareness of its employees. Additionally, visiting customers may also use the standard recharging stands.

Overview of Equipment Introduced

Company Name:	Moriroku Technology Technical Research Center
Address:	689-9 Terauchi, Moka-shi, Tochigi
Company Cars:	Honda e (Contains a large number of parts by Moriroku.)
Recharging Equipment:	Two standard recharging stands
Usage Start Date:	April 2021

Boasting a history of just over 350 years since its founding in 1663, the Moriroku Group has been steadily expanding its operations in global markets by proactively taking on new challenges at the forefront of emerging trends.
