

April 3<sup>rd</sup>, 2023

Moriroku Chemicals Company Ltd.

## Moriroku Chemicals to exhibit at CPHI Japan 2023

Moriroku Group's Moriroku Chemicals Company, Ltd. (Head Office: Minami-Aoyama, Minato-ku, Tokyo; President and CEO: Hideto Monji) will exhibit at CPHI\* Japan 2023, an international exhibition of active pharmaceutical ingredients and intermediates, to be held at Tokyo Big Sight from April 19 to 21, 2023.

\*CPHI : Abbreviation of Convention of Pharmaceutical Ingredient.

CPHI started in 1990 as a pharmaceutical ingredients exhibition in Frankfurt, Germany, and has been expanding year by year along with the rapid international growth of the pharmaceutical industry as a comprehensive exhibition for pharmaceutical development.

Moriroku Chemicals' booth (No. 5M-15) will feature bromine compounds from Chemada, which use bromine from the Dead Sea in Israel, reducing agents from Kemira in Finland, and cleaning agents from Pilot in the U.S. and other European and U.S. manufacturers. We aim to introduce our track record and knowledge in the pharmaceutical field, as well as examples of our wide range of product and materials, research and procurement, utilizing approximately 4,000 customers we have served as a trading company specializing in chemical products.

If you are looking for other materials or compounds, please feel free to visit the Moriroku Chemicals booth.

We look forward to welcoming you.
